Great George, I was hoping you can get any comments to them so the package is approvable when it comes back. I had some comments on the package we got in December, I will dig them out and provide them to you.

We should also touch base with Bob Smith to find out if there is some new suggestion regarding the submittal of the information in a particular format for future GIS mapping. I will send Bob a note.

Thanks, Michele

Hi Jerry,

Per our conversation yesterday, the (technical) review of the AE (aq. exemption) application remains ongoing for the sake of expediency and facilitating the resubmission of the AE with contents that are readily acceptable.

We are intent on developing a smooth AE process and participation as it concerns the agencies, the operators and the public.

I will forward my notes and will continue submitting including when the review is finished.

George

Hi Michele,

Please be informed that we would like to withdraw the recently submitted AE application for the Sisquoc aquifer in the Cat Canyon field. We intend to resubmit this after providing additional documentation to the application package. A formal letter will be sent to you to confirm this withdrawal. Thank you.
